

Preclinical Research Services

Toxicology
Pharmacology and Efficacy
Pharmacokinetics
Histopathology and Pathology

- Ophthalmology
- Dermatology
- Regenerative Medicine
- Autoimmune Diseases
- Metabolic Disorders
- Otic Research

A contract research organization by scientists, for scientists.

ARVO 2018

Leading Vision and Research

ARVO 2018 Annual Meeting
April 29 - May 3
Honolulu, Hawaii • Visit us at Booth 1130

Comparative Biosciences, Inc. is looking forward to attending Arvo 2018 in Hawaii and to learn more about current major topics in Ocular Research. This Annual Meeting provides opportunities for us to learn from our colleagues about their latest scientific achievements in the field of Ophthalmology and related disciplines, as well as from Nobel laureates and other distinguished leaders who have expanded our scientific horizons.

CBI provides expertise in the following Preclinical Ocular Research and Toxicology Services:

- Optical Coherence Tomography (OCT)
- Dry Eye
- Diabetic Retinopathy
- Ocular Toxicology Studies
- Ocular Pharmacokinetics Studies
- Ocular Modeling and Pharmacology

Contact us for more information and validation data.
